Level increase based upon a 5% increase in annual salary per level.
 An individual has to complete and pass a certain number of tests for each certification level. Tests are administered at official test centers. There is a cost involved with each test. If the individual does not pass the test they are required to retest and are required to pay the fee for testing again. An individual may select to study on their own for the tests or they may take classes that will prepare them for the tests.
